

Concrobium Mould Control Part # 020-020

Concrobium Mold Control offers mold remediation and prevention in a single solution, making it a versatile antimicrobial for restoration pros. The DIN-registered product can be deployed during the “knock down” phases of restoration projects to control mold spore proliferation, and can be applied on restored surfaces for ongoing mold protection.

The odourless solution contains no harmful chemicals and requires no special handling or personal protective equipment. It contains zero VOCs, making it the ideal solution for restoration contractors with customers who are chemically-sensitive.

PRODUCT FEATURES

- Single solution kills and prevents mold
- No bleach, ammonia or VOCs
- DIN-registered for fungicide and fungistat
- Requires zero isolation time and has no odour
- Can be fogged to treat large and inaccessible spaces
- Ready to use solution – no mixing required

PRODUCT SPECIFICATIONS

Size	18.9 L
Odour & Appearance	Clear Liquid / Odourless
PH	11.1 – 11.5
Vapour Density	Heavier than Air
Physical State	Liquid
