

# NON CONTACT INFRARED THERMOMETER

## Quickly Detects Elevated Body Temperature

### A COVID-19 ESSENTIAL TOOL

Use this non contact thermometer to take accurate body temperature readings without ever touching a person.

AVAILABLE NOW

HYGIENIC  
& EASY  
TO USE

Built-in memory  
holds up to 32  
temperature  
readings.

## FEATURES

### Measurement Accuracy Ranges

#### Three Temperature Modes:

1. **Body Mode:** 32°C ~ 43.0°C (89.6°F ~ 109.4°F)

#### There are three backlit colours:

- **Green:** ≤37.3°C (99.1°F) indicates normal temperature
- **Orange:** 37.4°C ~ 37.9°C (99.3°F ~ 100.2°F) indicates low fever
- **Red:** ≥38°C (100.4°F) indicates high fever

2. **Surface Mode:** 0°C ~ 60°C (32°F ~ 104°F)

3. **Room Mode:** 0°C ~ 40°C (32°F ~ 104°F)

#### Precision:

- 32.0°C ~ 34.9°C (89.6°F ~ 94.8°F) ±0.3°C(±0.6°F)
- 35.0°C ~ 42.0°C (95°F ~ 107.6°F) ±0.2°C(±0.4°F)
- 42.1°C ~ 43°C (107.8°F ~ 109.2°F) ±0.3°C(±0.6°F)

**Measuring Distance:** 3cm ~ 5cm (1.2in ~ 2in)

**Accuracy:** ± 0.3°C (0.6°F)

**Response Time:** 1 sec

**Automatic Shut-off:** <30 secs

**Memory:** 32 sets

Audible alarm if temperature is higher than 38°C (100.4°F)

- Display available in Celsius or Fahrenheit
- Made to last for 100,000 readings
- Eliminates risk of cross contamination

**Recommended For All Ages**

## TECHNICAL SPECIFICATIONS

**Consumption:** ≤300m W

#### Conditions For Use:

- Ambient temperature: 10°C ~ 40°C (50°F ~ 104°F)
- Relative humidity: ≤85%

**Batteries:** DC 3V (2 AA batteries)

**Dimensions:** 155 x 100 x 40 mm (L x W x H)

**Weight:** (without batteries) 105g

**Display Resolution:** 0.1°C (0.1°F)
