

HI-FLO | **MERV-8 Filters**

These innovative new filters replace traditional pleated and OEM filters. Made of 100% polyester and 90% recycled content, our HI-FLO filters have 20% less air restriction than traditional MERV-8 pleated and OEM filters for better equipment performance, while providing five times more dust-holding capacity.

- ▶ **Designed specifically for dehumidifiers**
- ▶ **MERV-8 efficiency**
- ▶ **Made of 100% polyester material**
- ▶ **20% less air restriction than traditional pleats**
- ▶ **Promotes top performance of your equipment**
- ▶ **Five times more dust and particle holding capacity than traditional pleated OEM Filters**
- ▶ **Maintains a lower pressure drop for optimum equipment performance**
