

Yellow Bonded Hazmat Polypropylene Pad- Heavy Weight # 1MBYPB

Versatile yellow HazMat sorbent for cleaning up aggressive and unknown chemicals. A single layer of polypropylene fibers bonded “sonically” together. Designed to absorb a wide range of toxic, flammable, corrosive and aggressive chemical spills
Very fine, uniform-sized fibers increase loft and absorbency. Perforated for easy use.

PRODUCT FEATURES

- Yellow color code signals emergency use
- Great value, versatility and reliable performance
- Very fast wicking, which reduces the clean-up time
- Dimpled surface reduces lint, increases strength and speeds absorption
- Combines high loft with drapability

▪ **PRODUCT SPECIFICATIONS**

Size	15" x 18"
Absorbent Capacity	22 gal of oil and 16 gal. water
Pads/ bale	100 pads
Material	Polypropylene
Colour	Yellow
Weight	11 lbs.
Fire retardant as per ASTM 726.
