

White Oil Only Sock code 40WS3/4

Description•

Flexible 3" tubes filled with absorbent fibers to contain spills, Absorbs petroleum-based spills and repel water
 Contain a high-performance blend of chopped meltblown/ polypropylene and ColdForm2™ cellulose fibers (fill color may vary)

Application

Used to clean up and contain small spills. Usually used around equipment and piping to contain leaks.

PRODUCT FEATURES

- Blended with ColdForm2™ fibers to increase absorbency
- Contain high proportions of recycled content
- Fibers are securely contained in a flexible polyester knit sleeve
- Flexible enough to wrap easily around corners and equipment
- Outer polyester knit sleeve is more UV resistant and stronger compared to competing polypropylene skin
