

Unsmoke UnSoot #1 Part# 433501000

Any number of events in a building can generate soot and particulate contamination, the most well known of which are structural fires and furnace malfunctions known as “puff backs”.

Unsoot #1 forms a protective coating that encapsulates these contaminants.

Unsoot #1’s long-lasting barrier helps prevent the release of particulates, thereby helping to improve indoor air quality and occupant comfort after restoration. Use on structural wood, or for sealing duct work and ceiling plenums after fires, smoke damage, or oil burner puff-backs.

PRODUCT FEATURES

- Use on structural wood, duct and ceiling plenums

PRODUCT SPECIFICATIONS

Size	3.8 L bottles
Colour	Milky White Liquid
Odour	Light Citrus
Case Size	4 – 3.8 L Bottles
PH	4.9
Specific Gravity	1.05
