

Fiberlock – Advance Peroxide Cleaner Part# 8314

Fiberlock Advanced Peroxide Cleaner is formulated specifically for use on mold remediation and water damage restoration projects. Fiberlock Advanced Peroxide Cleaner is the most advanced cleaner available for the restoration and remediation professional. It aggressively removes stains caused by mold and mildew on porous, semi-porous and non-porous materials.

Utilizing a proprietary combination of cutting-edge surfactants and advanced hydrogen peroxide, Fiberlock Advanced Peroxide Cleaner penetrates deep into the substrate. The hydrogen peroxide reacts instantly through an oxidation process that produces high foaming action which lifts the material to the surface. This oxidation process continues for some time after application and results in the brightening of the substrate within 24 hours.

PRODUCT FEATURES

- Removes stains caused by mold & mildew
- Low odour
- 6 month Shelf Life
- use on porous, semi-porous and non-porous

PRODUCT SPECIFICATIONS

Colour	Clear
Odour	None/Mild
Foaming	High Foaming
PH	7.5 – 8.5
Active Ingredient	Hydrogen Peroxide
Package Size	2.5 Gallon
