

LAVAMELT[®]

ICE MELTER
with **CALCIUM CHLORIDE PELLETS** and **CMA**

NATURE'S INFERNO!
Works down to **-25°F**

LAVAMELT®

ICE MELTER with CALCIUM CHLORIDE PELLETS and CMA

FAST ACTING - LavaMelt® is made with Calcium Chloride Pellets, which makes it one of the fastest acting ice melters on the market.

HOT - the Calcium Chloride Pellets in LavaMelt® allow it to attack the ice and snow with instant HEAT!

LONG LASTING - LavaMelt® is formulated with high-intensity melting extenders, giving it a long lasting melting life up to 24 hours.

PACKAGING - LavaMelt® is available in a wide variety of pack sizes. It is available in bags, shaker jugs, pails, boxes, drums and super sacks for larger applications.

COLOR FORMULATED - LavaMelt® is coated with an orange color indicator for enhanced visual impact. This highly visible coloring is non-tracking and non-staining, which helps ensure even and

effective distribution of product. Visitors are also given a real sense of security when they can see the ice melter in action.

TRACTION CONTROL - LavaMelt® is enhanced to provide added safety and traction control.

CORROSION INHIBITORS - LavaMelt® is enhanced with CMA (Calcium Magnesium Acetate), which is an added chloride-free corrosion inhibitor. LavaMelt's® special formula forms a bond between the surface area and the elements to allow for ease in snow removal.
