## ACCESSORIES FOR EVERY RESCUE

# ZOLL ResQSystem™ Cabinet

## One location. Many ways to help.

**Part # 8911-005050**

Spacious, centrally located cabinet for AEDs and trauma kits

- Quick and easy access
- AED and medical-supply graphic indicators on front and sides
- Charging port for Mobilize Comprehensive trauma kit ensures device is charged
- Suitable for all types of organizations

### Semi-recessed Wall Cabinet
**Part # 8000-001257**

Meets ADA (Americans with Disabilities Act) requirements

Dimensions: 14″ x 14″ x 3.5″

### Fully Recessed Wall Cabinet
**Part # 8000-001258**

Meets ADA requirements

Dimensions: 14″ x 14″ x 1.5″

### 9-inch Standard Wall Cabinet
**Part # 8000-0855**

Alarmed wall cabinet holds the AED Plus defibrillator *with* the carry case and one spare set of electrodes.

Dimensions: 17.5″ x 17.5″ x 9″

### 7-inch Standard Wall Cabinet
**Part # 8000-001256**

Alarmed wall cabinet holds the AED Plus defibrillator *without* the carry case and one spare set of electrodes.

Dimensions: 17.5″ x 17.5″ x 7″

### Strobe for Standard Surface-mounted Wall Cabinet

**Part # 8000-001259**

### Strobe for Recessed Wall Cabinet

**Part # 8000-001267**

# Electrodes, Batteries & Accessory Kit

Everything you need to keep your AED Plus ready to use.

## CPR-D-padz® Electrodes
### Part # 8900-0800-01

- One-piece design ensures fast and accurate placement
- For use on adult patients and children over the age of 8 or > 55 pounds (25 kilograms)
- Built into the electrodes, Real CPR Help® technology senses the rate and depth of chest compressions
- Five-year shelf life

## Pedi-padz® II Pediatric Electrodes
### Part # 8900-0810-01

- ZOLL's intelligent pediatric capability is built into the AED Plus defibrillator. The AED can sense when Pedi-padz II are being used and will switch from adult to pediatric mode, modifying the device to provide an appropriate pediatric ECG analysis algorithm and therapy energy level.
- For use with patients under the age of 8 years or < 55 pounds (25 kilograms)
- Two-year shelf life

*Caution: Pediatric electrodes should never be used with an adult patient.*

## Accessory Kit
### Part # 8900-0807-01

- The AED Plus accessory kit includes scissors, disposable razor, face barrier/shield, and dry towel.

*Note: This kit is included and attached to every set of ZOLL CPR-D-padz® electrodes.*

## Type 123 Lithium Batteries (sleeve of 10)
### Part # 8000-0807-01

- Non-proprietary off-the-shelf Duracell 123 lithium batteries
- 5-year standby life once installed in AED Plus

*Caution: Only use batteries from a ZOLL-approved manufacturer (refer to User Manual).*

# Mounting Bracket & Signage
Ensure AED visibility

### Mounting Bracket
Part # 8000-0809-01

Bracket for wall-mounting AED Plus without carry case

### AED Wall Decal
Part # 8000-0849-01

4" x 4" AED decal suitable for indoor or outdoor use

### AED Sign Package
Part # 8000-0825

3D wall sign and 8.5" x 11" wall-mounted sign to improve AED visibility

# Carry Cases, Backpacks, & Bags
Options for storage and transport

### Rescue Backpack
Part # 8000-001468-01

- Outer pouch that holds the AED Plus

- Three removeable, stick-in-place pouches in main compartment

- Side pockets for easy access to smaller equipment

Dimensions: 19" x 18" x 8"

### Large Hard-shell Carry Case
Part # 8000-0837-01

- Protection for AED Plus in more demanding environments

- Large enough to store AED Plus, CPR-D-padz, Pedi-padz II, and sleeve of 10 batteries

Dimensions: 19" x 15.4" x 7.6"

### Small Hard-shell Carry Case
Part # 8000-0836-01

- Protection for AED Plus in more demanding environments

- Stores AED Plus defibrillator only
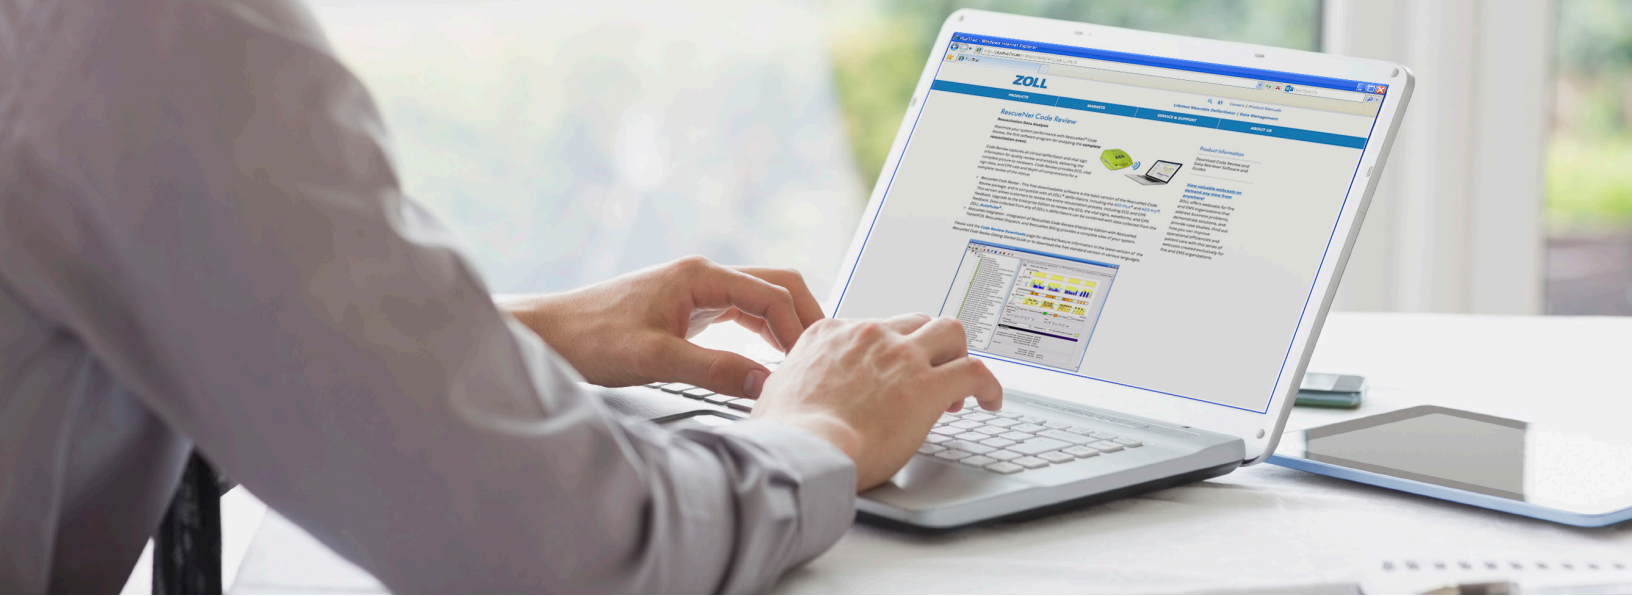

Dimensions: 16" x 13" x 6.9"

### Soft Carry Bag
Part # 8000-0802-01

- Provides easy access and quick retrieval of AED Plus and spare accessories

- Pockets for storing extra electrodes and batteries

# AED Device Management & Upgrade Tools

## Administrative Software (ZAS)
### Part # 8000-0311-01

- Software to reconfigure settings on ZOLL AED Plus

- Requires use of IrDA adapter
  (sold separately)

- Software can be downloaded at no cost
  directly from ZOLL website

## AHA Guidelines Upgrade Kit
### Part # 7771-000011-01

- Upgrades ZOLL devices manufactured
  prior to 2010 to current AHA Guidelines

- Includes Administrative Software (ZAS) CD,
  instructions, and labels to upgrade
  AED Plus faceplate

- Requires use of IrDA adapter (sold separately)

## USB-to-IrDA Adapter Kit
### Part # 8000-0815

- USB-to-IrDA adapter cable and driver software

- Required for AED Plus configuration and post-rescue
  event data review

## Mini USB-to-IrDA Adapter Kit
### Part # 8000-1200

- Mini USB-to-IrDA adapter cable and driver software

- Required for AED Plus configuration and post-rescue
  event data review

## RS232-to-IrDA Adapter Kit
### Part # 8000-0816

- RS232-to IrDA adapter cable and driver software

- Required for AED Plus configuration and post-rescue
  event data review

---

## RescueNet® EventSummary Software

- Provides a report of ECG and vital sign data, CPR
  rate and compression depth, and all device actions
  and voice prompts

- Summary reports exportable as PDFs

- Detailed information allows for complete review
  and analysis of the rescue

- Easy to email to patient's care provider or print for
  post-event debriefing and education

Download for free at: www.zoll.com/rescueneteventsummary

# AED Plus Clinical Unit Training
## Devices and Accessories

### AED Plus Demo Kit
#### Part # 8000-0834-01

- Kit to demonstrate Real CPR Help® with clinical AED Plus
- Includes CPR-D Demo electrodes and manikin in large carry bag
- Clinical AED Plus and simulator not included

### CPR-D Demo Electrodes
#### Part # 8900-5007

- Demonstration electrodes for use with clinical AED Plus
- Requires simulator

### Travel Trainer
#### Part # 8008-0006-01

- One-piece, compact, easy-to-carry demonstration tool
- Simulates VF and normal heart rhythms

### ZOLL AED Simulator
#### Part # 8000-000925

- Simulates heart rhythm for AED Plus demonstration using clinical unit

### Demo Manikin*
#### Part # 8000-0835-01

- Adult manikin for AED/CPR training
- Use with AED Plus clinical unit and AED Plus Trainer2
- Training electrodes and simulator sold separately

# AED Plus Trainer2 & Accessories

Everything you need to simulate a rescue with your AED Plus Trainer2

## AED Plus Trainer2

Semiautomatic: Part # 8008-0050-01
Fully automatic: Part # 8008-000052-01

- Allows the student to experience what it's like to help save a life with the AED Plus defibrillator. Choose from four different training scenarios or have complete manual control of the entire rescue. A wireless remote lets you control multiple Trainer2 devices.

- Ships with Operator's Manual, batteries, wireless remote, and adult training electrodes

- Replacement adult training electrodes, pediatric training electrodes, and adhesive gel can be purchased separately as needed

## Pedi-padz II Training Electrodes
Part # 8900-000861-01

- Pediatric electrodes for use with the Trainer2

- Pack of 6

## Demo Manikin*
Part # 8000-0835-01

- Adult manikin for AED/CPR training

- Use with AED Plus clinical unit and AED Plus Trainer2

- Training electrodes and simulator sold separately

## CPR-D-padz Training Electrodes
Part # 8900-0804-01

- Adult electrodes for use with the Trainer2. Replacement gel can be purchased separately.

## Replacement Adhesive Gel for CPR-D-padz Training Electrodes
Part # 8900-0803-01

- Gel must be applied to the reusable pad before use.

- Pack of 5

## AED Plus Trainer2 Soft Carry Case
Part # 8000-0375-01

- Clearly identifies the device as a training unit and provides a convenient way to transport the Trainer2. Includes a pocket for accessories

## Replacement Trainer2 Wireless Remote
Part # 8008-0007

- Wireless remote for use with the Trainer2

# AED Program Management
## Stay prepared to save a life

### PlusTrac® Professional AED Program Management for a single AED

1 Year: Part # 8000-1110-01
