Encapuclean Green DS

Double Strength Low Moisture Encapsulating Carpet Cleaner

Encapuclean Green DS

Based on the latest technology in green surfactants and encapsulating polymers, Encapuclean suspends and releases soils from carpet during cleaning. The polymer attaches to carpet soils and fibers and then dries to a very hard polymer. When vacuumed, the dry brittle polymer fractures away, taking the attached soils with it. Encapuclean Green DS employs a new exclusive, proprietary non-hygroscopic polymer that allows for even faster drying times than other encapsulation products.

Carpets cleaned with Encapuclean Green DS most often dry in less than an hour preventing the wicking, yellowing, and recurring stains that often plague commercial carpets. Subsequent vacuuming performance is enhanced with carpets actually getting cleaner with each vacuuming.

Encapuclean Green DS has been formulated in accordance with the latest environmental guidelines for green cleaning chemistry with the very latest in surfactant and encapsulating technology. It cleans with a fresh, "green approved" fragrance that your customers will love. In addition, its new ultra-concentrated formula provides twice the coverage of conventional encapsulating cleaners.

Encapuclean Green DS can be safely effectively used with cylindrical counter rotating brush, rotary brush or bonnet, oscillating, or orbital agitation machines for high performance low moisture cleaning.

Part Number: CC15GL

7.5 - 7.8 RTU pH

Contents: One U.S. Gallon (3.79 Litres)

Available in Gallons and 4 x 1 gallon cases

- Employs exclusive non-hygroscopic polymer that allows for even faster drying
- Prevent wicking, yellowing and recurring stains
- Double Strength Formula provides twice the coverage of conventional cleaners
- Clean 2000 - 3000 sq. ft. per hour
- Includes refreshing "green" approved fragrance

DIRECTIONS

Dilute 1 to 32 (4 oz. per gallon hot water). Dilute 1 to 16 for extra-heavy soil.

Application for brush and vacuum (encapsulation)

Spray solution consistently over section of carpet and brush with rotary and carpet brush or counter rotating brush machine. Allow to dry and then extract with vacuum. Effective on all soil conditions.

Application for bonnet cleaning

Spray mixture lightly over an absorbent bonnet and over a section of the floor to be cleaned. Place bonnet under rotary machine and move over area until clean. Change bonnets frequently and place in plastic bag to keep moist until laundered. For use with medium to heavy soil.
