Dustless® OSHA Silica Rule Compliance Guide

Many jobs create hazardous silica dust. For those jobs, **OSHA** requires two items:

- ✓ A commercially available dust collection shroud attached to the worker's tool
- ✓ A 99% efficient dust collection system that includes a filter cleaning mechanism

Dustless Technologies makes the **most universal** and **most cost-effective** OSHA-compliant dust collection systems on the market. No need to replace your existing tools!

Dustless offers OSHA-compliant systems for many tools and jobs

Wet+Dry
DustlessVac®
(Model D1603)

3 sizes available - 1 3/8", 4", and 8"
 - d) DustBuddie for 7-1/4" worm drive circular saws
- ...and more!**

OSHA's HEPA Requirements

OSHA requires a High-Efficiency Particulate Air (HEPA) vacuum for **housekeeping and vacuuming drill holes**. It is advised that each construction crew has at least one HEPA vacuum on site, such as the HEPA BackPack DustlessVac (Model 15505).

NOTE: For some jobs, OSHA requires personal respiratory protection of APF 10 - 25 (regardless of dust control systems).
