

PROTECT WITH DENTEC

LIDGUARD

CAP STYLE

- **Type 2 Protection** - Certified for both top and side impact and penetration to CSA Z94.1 and meets ANSI Z89.1 standards.
- **Exceptional Balance** - Engineered to minimize torque and reduce neck fatigue.
- **Enhanced Safety** - Ideal for environments where lateral impact hazards are present.
- **Unique Swivelling 4-Point Ratchet Suspension** - Provides a custom, snug fit with minimal pressure points. Allows for micro adjustments to fit all head sizes. Same suspension used in all LIDGUARD® hard hats.
- **Advanced Ventilation** - Suspension system includes ventilation ports at the forehead to enhance breathability and reduce heat buildup.
- **Rain Trough** - Channels rain to the peak of the hat. Prevents it from dripping down your neck.
- **Brow Pad** - Made from a unique polyurethane foam material that absorbs perspiration and is replaceable. Same brow pad used in all LIDGUARD® head protection products including cap, fullbrim safety helmets and bump cap.
- **Accessory Slots** - Universal side slots accommodate earmuffs, face shields, and other PPE.
- **Chin Strap Compatible** - Attachment points allow secure use in climbing or elevated environments.
- **Factory Installed 4-Point Chin Strap** - Cap and fullbrim are available with a 4 point chin strap with quick connect and release buckle. See page 6 for picture.
- **Short Peak & Trim Profile** - Improves upward visibility and fits tight spaces.
- **Reverse Headband Certified** - Wear forward or backward for added flexibility when you reverse the headband 180° in the shell.
- **Lightweight** - Providing all day comfort and reducing neck strain.
- **Made in Canada** - Proudly manufactured to meet stringent safety and quality standards.
- Perfect for utilities, mining, foundry, oil & gas, heavy industry, and high-risk job sites demanding advanced impact protection.

Type 2 4-Point Ratchet Suspension

CSA Z94.1 Type 2 | ANSI Z89.1 Type II | Class E, G, C

Made in Canada

Available with or without Chinstrap

The LIDGUARD® Type 2 Cap Style Hard Hat offers enhanced protection against both top and lateral impacts. Designed for higher-risk worksites, this helmet provides superior balance, comfort, and all-day wearability thanks to its ventilated 4-point ratchet suspension system.

FULLBRIM

- **Type 2 Protection** - Certified for both top and side impact and penetration to CSA Z94.1 and meets ANSI Z89.1 standards.
- **Full Brim Coverage** - Provides added protection against sun, rain, and falling debris.
- **Sleek, Ribbed, Low-Profile Design** - Ribbed, low-profile construction ensures a secure and well-balanced fit.
- **4-Point Swivelling Ratchet Suspension** - Unique design adjusts for maximum comfort and personalized fit. Offers a snug, customized fit with reduced pressure points. Allows for micro adjustments to fit all head sizes. Same suspension used in all LIDGUARD® hard hats.
- **Advanced Ventilation** - Suspension features ventilating ports at the forehead to keep the wearer cool in hot environments on the job.
- **Brow Pad** - Made from a unique polyurethane foam material that absorbs perspiration and is replaceable. Same brow pad used in all LIDGUARD® head protection products including cap, fullbrim safety helmets and bump cap.
- **Accessory Slots** - Universal slots accommodate face shields, earmuffs, and other PPE.
- **Chin Strap Compatible** - Attachment points allow secure use in climbing or elevated environments.
- **Factory Installed 4-Point Chin Strap** - Cap and fullbrim are available with a 4 point chin strap with quick connect and release buckle. See page 6 for picture.
- **Incredibly Comfortable** - Engineered for long shifts and demanding conditions.
- **Lightweight** - Providing all day comfort and reducing neck strain.
- **Great Balance** - Distributes weight evenly to reduce neck fatigue.
- **Made in Canada** - Proudly manufactured to the highest quality and safety standards.
- Perfect for mining, utilities, forestry, and heavy industrial applications where comprehensive impact protection is essential.

Designed for enhanced lateral and top impact protection, the LIDGUARD® Type 2 Fullbrim Hard Hat offers superior coverage, comfort, and stability. Ideal for high-risk environments where fullbrim coverage is a must.
