- **Available in: 1 L (34 US oz), Spray-Pack or 4 L (1.06 US gal)**

Part #1 pH: 11.4 Part #2 pH: 5.7 Mixed pH: 9.7

MAKE STUBBORN COFFEE AND TANNIN STAINS DISAPPEAR LIKE MAGIC

DIRECTIONS FOR USE:

Pretest in an inconspicuous location for color fastness and fibre stability. Mix equal parts of Vanish #1 and Vanish #2 in the supplied mixing bottle. Vanish #1 and Vanish #1 must be used at equal proportions to ensure proper cleaning. Saturate the stained area with the mixed solution of Vanish. Watch stains disappear as the stained area dries. Stubborn stains may require more than one application.

Mix only amounts required for immediate use. Mixed Vanish solution cannot be stored for later use. Unused portions cannot be returned to their original containers. Eye protection and rubber glove must be worn when using this product. Due to the natural chemical activity of Vanish #1 and Vanish #2, when products are mixed, foaming may occur resulting in possible leakage from the supplied Mixing Bottle. Do not place or store the mixing bottle on tables, countertops or any surface that can be damaged by hydrogen peroxide solution. Do not mix or store blended Vanish #1 or #2 solution in a sealed container. Pressure can build and cause the container to burst spraying chemicals on you and others. Keep away from heat source and store in a cool dry location.

VANISH SPRAY-PACK

- No mixing required
- Spray-Pack automatically mixes only the amount you need
- This product is not designed for use on wool carpets

Keep this product out of reach of children. Read the Material Safety Data Sheet and Product Label before using. Take the necessary precautions dictated by the label to ensure that your health and that of your customers' is protected.

Mixed pH: 9.7
