

Dri-Eaz LGR 7000 XLI Dehumidifier Part # F412

Breaking the performance barriers as the new category leader, the LGR 7000XLI removes more water than any other dehumidifier in its category!

To achieve the Dri-Eaz LGR 7000's amazing performance, Dri-Eaz engineers developed the Advanced Crossflow Technology to maximize energy utilization. At the same time, the Dri-Eaz LGR 7000 XLI Dehumidifier unit's built-in sensors constantly monitor real time performance data to automatically calculate ideal operating parameters – such as fan speed and cycle duration – in real-time.

Product Features

- Advanced Crossflow Technology maximizes efficiency even in low grain environments.
- Ensures best performance across range.
- Self-monitoring system. Built-in sensors monitor performance parameters allowing for automatic fast speed adjustments.
- Built-in humidistat and plain-English control panel messages
- Versatile application – standard 12 in. ductable outlet.
- Legendary rotomolded housing – practically indestructible – resists dents and dings
- stackable for storage – saves room in warehouse.

PRODUCT SPECIFICATIONS

Dimensions (H x D x W)	33.5 X 20 X 20 in.
Water removal AHAM (80°F/60% RH)	130 pints 61.5 liters / day
Water removal max.	235 pts. 111 /day
Max Process Air	325 CFM 552 CMH
Weight	107 lbs. 49 kg
Power	8.3 amps, 115 volts
