SKU : SCISSOR-LIFT

Load capacity	12 lbs
Lifting speed	4 sec.
Motor nominal torque	4.53 mNm
Operating temp.	-20 to 65°C
Total weight	4.2 lbs

Use this powerfull accessory to adjust your working height with Spray-Kit™ and Brush-Kit™. This is what you need for projects with larger ducts. It will help apply the coating more evenly or access areas normally inaccessible due to height.

Count on reliability and durability with its high-quality motor fitted with powerful permanent magnets and its fully alluminium made body. Cutting-edge technology in compact, powerful and low inertia drives.

EXTENSION-ARM™

A 12 inches extension for the Airbot One's arm. Perfect for cleaning large industrial ducts and reach high places.

- Easy to connect
- Red anodized aluminium

SKU : EXT-ARM
