

TGB516NX

Compact and Cordless convenience with support at your fingertips
 With up to 80 minutes of run time, 5 gallon solution capacity and a powerful 36V Lithium Ion battery, the TGB 516NX is the professional choice in auto-scrubbers.
 It cleans all those tight areas that other auto-scrubbers can't get into and is a labour saving upgrade from a mop and bucket.

Key Features:

- Clever tank design is compact while still offering 5 gallon capacity for non-stop cleaning
- Pivoting squeegee, coupled with a 100 watt vacuum motor, provides excellent water recovery
- Powered by the NX300 36V Lithium Ion battery with premium Tier-1 cell technology and delivering over 2500 charge cycles
- Easy drain recovery tank means no need for lifting
- Easy access to multilingual support, training and maintenance content with Nu-Assist App
- NX300 Battery is interchangeable across the NX300 range of cordless products
- Only 75lbs and fits in the trunk of a car for easy transport
