

Shank, Ultra HD 2" X 6"

Part # NF-7079-2

These shanks are designed for ceramic removal and thin-set rescraping. The half inch of extra carbide allows for maximum resharpener. These tools can handle work loads up to 3500 pounds! The 552 angle shank with carbide tip is designed for light-duty commercial & residential grade ceramic tile and hard good removal. A 551 shank holder is required to attach this blade to the 550 walk-behind scraper.
