Ultrapac® Renovate

Formulated for the most difficult fire or water damage restoration jobs, Ultrapac Renovate is a highly concentrated extreme cleaner for heavy soils and charged particle soils such as soot contamination. This cationic cleaning agent can be used on most painted and unpainted surfaces, drywall, metals and other water-cleanable surfaces. Renovate contains no solvents that can damage sensitive surfaces and easily rinses without streaking.

SPECIFICATIONS

- RTU pH: 10.5–11.0
- **Coverage:** 1 gal. makes up to 129 gals. of RTU solution for approximately 400 sq. ft. per diluted gal.
