

PROCHEM®

Ultracpac® Extreme

State-of-the-art nanotech “micro-robots” in Ultracpac Extreme bind and suspend soils for fast and efficient removal. A complex buffering system keeps the pH stable to maximize cleaning potential in all conditions. Plus, its new Hydrocoating Technology means this new economical powdered product is fast-dissolving even in cold water and is stable up to 212°F / 100°C. The RTU will not separate and can be stored for several weeks.

FEATURES

- Nano-technology outcleans other pre-sprays at an economical price
- Hydrocoating Technology ensures fast and complete mixing – even in cold water – and won’t separate or in harden your Hydro-Force or other pressure applicator!
- RTU solution is perfectly clear and can be stored.
- Performance is unaffected by water hardness up to 24 grains.
- Stable up to boiling temperatures – use the hottest water from your truckmount to dissolve and apply the product.
