

PRODUCT CATALOG

DRY FAST. DRY SMART. DRY PROFILE

DURABILITY THAT WEATHERS THE STORM.

For 25 years, Phoenix has been redefining Restoration Equipment. Every product is designed to create the most complete product offering for every drying scenario.

Our goal is to make your project simpler. And more profitable.

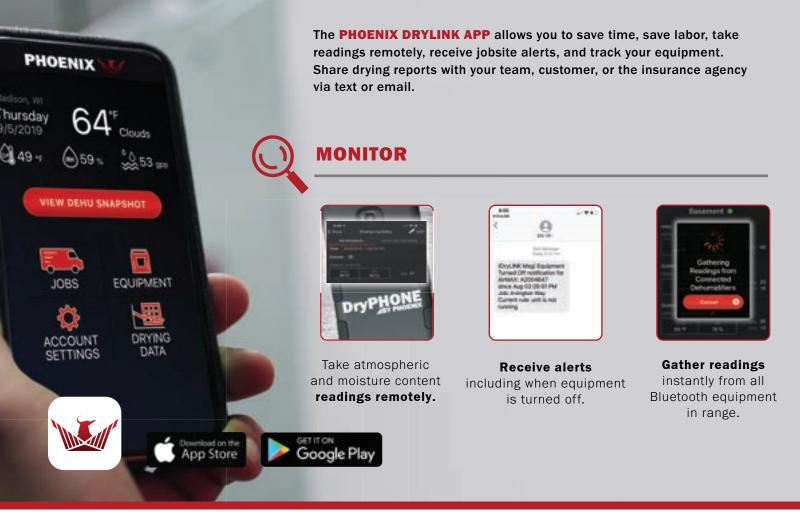

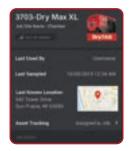

DryLINK App

SCHEDULE SMARTER.

Track all of your smart equipment using last known location.

- Drying report link is updated in real-time
- Equipment serial numbers and usage automatically added
- Automate all air and moisture content readings
- Customize with your company's logo
- Allows for non-smart equipment readings

DryLINK Enabled Equipment

PART NUMBERS: DryMAX BLE 4038500 (Blue 4038550), DryMAX XL 4037000 (Blue 4037060), AirMAX BLE 4038310 (Blue 4038320)

Our DryMAX BLE, DryMAX XL and AirMAX BLE are available with Bluetooth technology allowing you to automatically connect these units to DryLINK.

Update your existing DryMAX with our Bluetooth upgrade kit. PART NUMBER: 4041595

DryTAG

PART NUMBER: 4041835

battery-powered Bluetooth beacon works with any brand of equipment to provide last known location and hours of operation. Paired with DryPHONE, this beacon can send alerts if equipment loses power or is turned off.* * DryTAG does not provide Temperature and RH data.

DryPHONE

PART NUMBER: 4041845

DryPHONE offers access-from-anywhere convenience to DryLINK enabled equipment. This inexpensive option provides a number of benefits including the ability to send alerts when equipment is turned off or when a goal has been reached.

This inexpensive option provides a number of benefits including, remote monitoring and jobsite alerts.

DryLINK Residential Kit - Get started with 16 DryTAG's, 6 DryTAG RH's, and 4 DrySENSE for one special price - **PART NUMBER:** 4042385

Xactimate Remote Monitoring Codes with DryPHONE (Gateway):

WTRRM Remote Monitoring with up to 10 sensors: \$50/day* WTRRMG Remote Monitoring - additional gateway: \$30/day* WTRRMS Remote Monitoring - additional sensor (each): \$3/day*

DryTAG RH

PART NUMBER: 4041915

Mount the DryTAG RH, a Bluetooth Temp/RH Sensor,

directly to the inside of the outlet grill of your dehumidifier to start measuring temperature and relative humidity (RH). Automated psychometric data is then streamed automatically to the DryLINK app and drying report. The DryTAG RH can also be used as a standalone thermo-hygrometer to automate the unaffected area, affected area, HVAC, or outside conditions.

DrySENSE

PART NUMBER: 4042055

The Phoenix DrySENSE is a Bluetooth moisture content sensor for setting and monitoring moisture goals on the job site. Moisture content readings are automatically added to the drying report and log the time when the drying goal is reached. The attached pins allow you to push the sensor into wet drywall and the included accessory gives you the ability to put stainless screws into harder surfaces to measure the moisture content.

LGR DEHUMIDIFIERS

DRYMAX BLE

PART NUMBER: 4038500

PINTS/DAY @ AHAM: 80

AMPS: 5.7

CFM: 170

SIZE: 12"W X 17.5"H X 21"D, 63 LBS.

XACTIMATE CATEGORY: L

XACTIMATE CODE: WTRDHM>

RATE/DAY: \$73.13*

Optional blue rotomold cabinet (PN 4038550)

Superior stacking capability

- Built-in Bluetooth technology with data logging and instant readings
- Phoenix DryLINK mobile app (iOS and Android compatible)
- Three-year warranty on new style condensate pump
- Industry-leading graphical control panel
- Superior stacking
- Easy access for service
- On-board storage for 25' power cord and 33' condensate hose
- ▶ 80 PPD @ AHAM
- Optional Bluetooth Upgrade Kit for existing DryMAX units (PN 4041595)

Retractable handle

Convenient – hose and cord storage

Wheels for easy transport Outlet ductable

R250

PART NUMBER: 4034460

PINTS/DAY @ AHAM: 135

AMPS: 8.3

CFM: 310

SIZE: 20"W x 33.5"H x 20"D, 109 lbs.

XACTIMATE CATEGORY: XL

XACTIMATE CODE: WTRDHM>>

RATE/DAY: \$114.72*

- XL category, 135 pints/day
- Vertical, retractable handle and inset wheels allowing for easy transport
- Ducting options for flexible drying configurations
- Convenient cord and hose storage
- Lightweight, durable rotomold cabinet
- Stackable design for easy storage

LGR DEHUMIDIFIERS

DRYMAX XL

PART NUMBER: 4037000

PINTS/DAY @ AHAM: 125

AMPS: 7.7

CFM: 300

SIZE: 16"W X 17.5"H X 24"D, 88 LBS.

XACTIMATE CATEGORY: XL

XACTIMATE CODE: WTRDHM>>

State-of-the-art

graphical

control panel

Convenient hose

and cord storage

RATE/DAY: \$114.72*

- Ultra compact design with XL performance
- Superior stacking capability
- Patented five-coil design with auto adjusting fan speed for maximum LGR performance
- Bluetooth enabled to integrate with Free DryLINK app
- Easy access for filter replacement and service

 Optional blue rotomold cabinet (PN 4037060)

Integrated fold-down handle

Dual 10" or single 14" layflat ducting options

Wheels for

easy transport

250 MAX

PART NUMBER: 4030010

PINTS/DAY @ AHAM: 145

AMPS: 8.2

CFM: 365

SIZE: 20"W x 40"H x 23"D, 119 lbs.

XACTIMATE CATEGORY: XL

XACTIMATE CODE: WTRDHM>>

RATE/DAY: \$114.72*

- Most energy efficient LGR
- Operates up to 125°F
- Fixed high-temp, ByPass™ technology
- Outperforms competitors at all temperature conditions without needing adjustments on the job
- Stainless cabinet provides sleek and protective covering

DESICCANT DEHUMIDIFIERS

D385

PART NUMBER: 4026700

PINTS/DAY @ AHAM: 130

AMPS: 24

CFM: 385 (75 Reactivation Airflow)

SIZE: 24.25"W x 40"H x 21.375"D, 105 lbs.

VOLTS: 115

XACTIMATE CODE: WTRDHMD

RATE/DAY: \$230.00*

- Wide operating range allows for water removal regardless of climate conditions
- Operates on two separate 115V circuits
- High-capacity performance
- Portability allows for easy transport and set up
- Stainless cabinet provides sleek and protective covering
- Fits inside most crawl spaces

Powerful

ELECTRIC HEAT DRYING SYSTEMS

FIREBIRD COMPACT 20

PART NUMBER: 4033450

BTUS: 20,000 Max (5,000 BTUs/Circuit)

AMPS: (1)-(4) 12 Amp Circuits

CFM: 250

SIZE: 13"W x 12.5"H x 26"D, 35 lbs.

FILTER: MERV-11

XACTIMATE CODE: WTRHTAM

RATE/DAY: \$180.00*

Note: Cords are not included with this unit.

- ETL listed to UL/CSA standards
- Powerful heat in a lightweight, compact and portable footprint
- Start up delay prevents sparking
- Sensors disable heating elements if blocked airflow or overheating conditions are detected
- Constructed of double walled enclosures to ensure external surfaces are safe to touch
- Remote thermostat to control heat from anywhere in drying space

- Multiple heating and ducting options
- High-efficiency MERV-11 filtration

Phoenix FireBIRD Compact 20 is tested for the highest safety standards. Our FireBIRD Compact 20 features:

- ETL listed to UL/CSA standards.
- Startup delay to prevent potentially dangerous arcing/sparking on startup.
- All heating elements are shielded in a double-wall enclosure.

AIR MOVERS

FOCUS II

PART NUMBER: 4042250-01

AMPS: 1.1

CFM: 1025

SIZE: 17.25"W X 20"H X 19.4"D, 27 lbs.

CIRCUIT: 15A GFCI Duplex Receptacle

XACTIMATE CODE: WTRDRY

RATE/DAY: \$25.39*

- Dual fans optimized to direct airflow > Daisy chain toward problematic corners
- Multiple orientations for symmetrical setup
- Superior stacking ability: bookshelf storage or transport stacking
- Remote monitoring capabilities (with DryTAG and DryPHONE accessories)
- Weighing only 16 lbs, two units can be carried in one hand

up to 10 on one 15 Amp

Optional blue rotomold cabinet (PN 4042250-02)

Dual Cord Wrap Options with Integrated Plug Lock

AIRMAX & AIRMAX BLE

PART NUMBER: 4035000 (AirMAX)

PART NUMBER: 4038310 (AirMAX BLE)

AMPS: 1.9

CFM: 925

SIZE: 17"W x 8.875"H x 20.5"D, 21 lbs.

CIRCUIT: 15A GFCI Duplex Receptacle

XACTIMATE CODE: WTRDRY

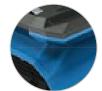

RATE/DAY: \$25.39*

Bluetooth compatible version available, order AirMAX BLE

- Easy winding cord and integrated handle for maximum portability
- Optimized outlet shape delivers high velocity air
- Stability in all 4 drying positions provides flexibility and safety
- Convenient GFCI receptacle provides protection

Optional blue rotomold cabinet (PN 4035060 BLE PN 4038320)

Nesting design provides superior stacking capability

AIR SCRUBBERS

GUARDIAN R

PART NUMBER: 4031350 FILTRATION: HEPA

AMPS: 2.4

CFM: 250-500

SIZE: 22"W x 14"H x 24"D, 33 lbs.

XACTIMATE CODE: WTRNAFAN

RATE/DAY: \$70.00*

- The most compact, portable True HEPA air filtration device made
- Two-stage filtration design with optional carbon filter
- High energy efficiency
- Durable, lightweight and stackable rotomold design
- High performance and portability
- Variable speed airflow
- Onboard duplex GFCI and circuit breaker

Pleated pre-filter and HEPA filtration captures all removable particles

Small footprint

and tough

rotomold cabinet

Multiple ducting options for inlet and outlet

FOR DEHUMIDIFICATION EQUIPMENT

STEP 1: Determine the cubic feet of the affected area.

Cubic Feet of affected area = (width) x (length) x (height) or (square footage of affected area) x (height of ceiling).

STEP 2: Determine the class of water damage.

CLASS 1: Slow Rate of Evaporation – (least amount of water absorption and evaporation load): Water intrusion where low porosity materials (e.g., hard surface flooring, plaster, concrete) or medium porosity materials (e.g., structural framing, wood substrates) have absorbed minimal moisture; less than 5% of the combined floor, wall and ceiling surface area in the space is wet, highly porous material (e.g., carpet, gypsum wallboard).

CLASS 2: Fast Rate of Evaporation – (significant amount of water absorption and evaporation load): Water intrusion where wet, highly porous materials (e.g., carpet, gypsum wallboard) represent more than 5%, but less than 40% of the combined floor, wall and ceiling surface area in the space.

CLASS 3: Fastest Rate of Evaporation – (greatest amount of water absorption and evaporation load): Water intrusion where wet, highly porous materials (e.g., carpet, gypsum wallboard) represent more than 40% of the combined floor, wall and ceiling surface area in the space.

CLASS 4: Specialty Drying Situations – (deeply held or bound water): a water intrusion that involves a significant amount of water and absorption into low porosity materials (e.g., hard surface flooring, plaster, concrete) or assemblies (e.g., gym floors, structural cavities, multiple layers of gypsum wallboard) that have a low rate of evaporation due to deeply held or bound water. Drying may require special methods, longer drying times, or substantial vapor pressure differentials.

Other factors can impact the drying environment. Restorers should understand and consider these factors when estimating the drying capacity needed to prevent additional damages and begin the drying process. These factors include:

- Influence of heating, ventilating, and air conditioning (HVAC) systems
- · Build-out density of the affected area
- Building construction complexity
- Influence of outdoor weather

STEP 3: Determine the proper division factor.

The division factor is determined by the class of water damage and the type of dehumidifier used.

Initial Dehumidification Factors	for Simple Calcul	ation - IICRC		
TYPE OF DEHUMIDIFIER	CLASS 1	CLASS 2	CLASS 3	CLASS 4
CONVENTIONAL REFRIGERANT	100	40	30	N/A
LOW GRAIN REFRIGERANT (LGR)	100	50	40	40
DESICCANT	1 ACH	2 ACH	3 ACH	3 ACH

Initial Dehumidification Factors	for Simple Calcul	ation - Chuck Dev	vald Structural D	Orying Academy
TYPE OF DEHUMIDIFIER	CLASS 1	CLASS 2	CLASS 3	CLASS 4
LOW GRAIN REFRIGERANT (LGR)	70	40	30	70
DESICCANT	2 ACH	4 ACH	5 ACH	2 ACH

STEP 4: Determine pints of dehumidification needed per day.

Pints needed per day = Cubic Feet of Affected Area (from Step 1)

Division Factor (from Step 3)

Use the Dehumidifier chart to the right to determine performance.

STEP 6: Determine number of dehumidifiers required.

Number of dehumidifiers required =

Pints of Dehumidification Needed Per Day (from Step 4)

Dehumidifiers Rated Performance at AHAM (from Step 5)
