# Check your AEDs
from anywhere

With the CheckAED® app, you can quickly and efficiently perform and input routine inspections from anywhere. Simply download the app to your smartphone or tablet. When it's time to check each AED, inspect its status indicator and log it in PlusTrac with a single touch. If anything needs correction or replacement, your program manager will be notified right away.

Training status: Ready
Date trained: 215 days ago
Retraining needed: in 150 days

PlusTrac™

ZOLL

KNOW IT'S MANAGED.
KNOW YOU'RE READY.

It's easier than ever to manage a Rescue Ready AED program

> Increasing a sudden cardiac arrest victim's chance of survival requires **more than just placing an AED on the wall.**

- Devices must be **ready.**
- Responders must be **ready.**
- Programs must be **compliant.**

PlusTrac Keeps You on Track

PlusTrac is an interactive, web-based solution that enables seamless, reliable AED management for programs of all sizes. From registering your AED and documenting your responder training to recall notifications, legislative updates, and AED prescriptions, PlusTrac helps streamline administration and provides visibility to all facets of your program.

Whatever brand of AED you've chosen, PlusTrac will help you manage your whole program.

Studies show that well-implemented AED programs can **significantly improve survival rates.**[1]

Know You're Ready – At a Glance

PlusTrac makes it easy to manage and track your AEDs, their pad and battery status, inspections, and responder training and certifications. And customized reporting facilitates teamwide communication.

### Roles for Collaborative Organizations

The bigger the organization, the greater the need to set clear roles and responsibilities for team members. PlusTrac provides views that streamline information according to individual roles, creating a platform that scales for even the largest teams.

Software and Service for the Win

Effective program management requires more than software. From FDA-required AED prescriptions and medical oversight to EMS agency notification and post-event support, PlusTrac delivers everything you need for worry-free AED program compliance.
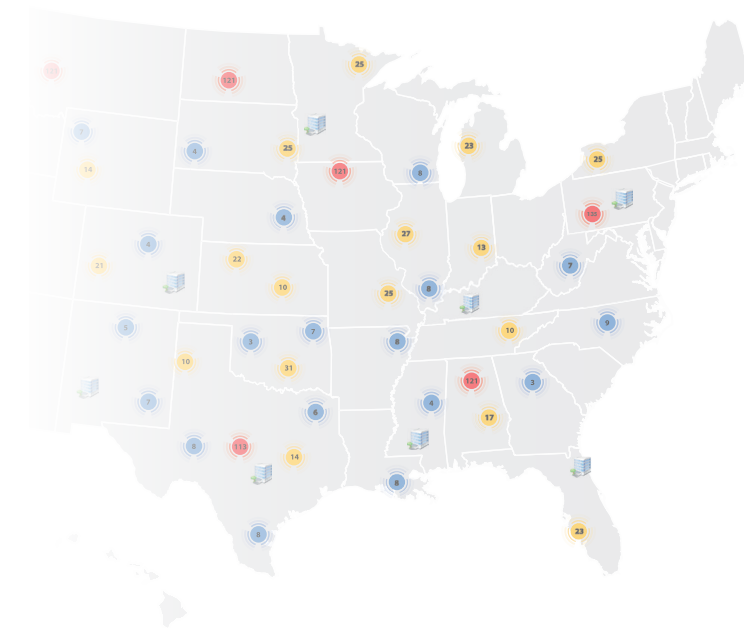

Connected Devices Build Confidence

WiFi-connected ZOLL AED 3 devices self-report AED status, battery use, and electrode expiration, along with post-event data that PlusTrac translates into usable, actionable alerts. Similarly, ZOLL Powerheart G5 devices connected via the Rescue Ready Monitor transmit similar data.
