FS Oven & Grill Cleaner

Alkaline Cleaner for Grills, Ovens & Fryers

FS Oven & Grill Cleaner

Where to Use

FS Oven & Grill Cleaner is a highly effective cleaner for griddles, fryers and ovens. It is formulated to quickly remove baked-on carbon leaving no residue or lingering odour.

Benefits

- Fastest results on the heaviest carbonized soils.
- No nonyl phenol ethoxylates, phosphates or 2-butoxyethanol.
- Cost-effective, time saving. Saves inventory.
- Can clean by foam, immersion, bucket and brush or spray and wipe.
- No need to reheat surfaces or wait for heat.
- Sodium Hydroxide content.
- Removes broadest range of kitchen soils – carbon.
- Extremely concentrated.
- Higher alkalinity than conventional products.

Directions for Use

Metal Safety: Not safe on aluminum or other soft metals.

GRIDDLES: Dilute (1:1) Pre-heat the cooking surface to 80°C (176°F) before cleaning then shut-off. Pour solution directly onto the hot surface. Clean the surface using a scrubbing pad. Repeat if necessary. Rinse and wipe clean using potable water. Apply a thin coat of cooking oil to prevent surface from rusting.

COMMERCIAL OVENS: DO NOT DILUTE. Wearing protective gloves, use a sponge or sprayer to apply Grill Clean directly to walls, racks and glass. Let Grill Clean work in for 15 minutes. Stubborn areas may need light agitation using a nylon scrubbing pad. Rinse well with potable water.

DEEP FRYERS: Empty fryer completely. Scrape-off or hose down to remove excess grease. Fill-up to 10 cm (4") from the top using cold water. Dilute (1:25-1:40) 3-5 oz per gallon/90-150 ml per 3.8 litres of water. Boil the solution for 30 minutes. While still warm, Scrub the greasy residue. Drain and flush off using hot water. Rinse well with potable water before use.

For Food Plants, Institutional and other Industrial use. Avoid contact with food products. Rinse all food contact surfaces and equipment with potable water after use.

Do not contaminate food, feed or potable water during use. The amount of product used should not be in excess of that required to achieve the intended technical effect.

NOT FOR USE ON ALUMINUM.
