Bufferall

Salt and Alkaline Neutralizer

Bufferall

Where to Use

Bufferall removes soils and films from winter conditions. Use as your daily cleaner on floors to remove residues from ice melters, rock salt, slush and water films. Contains citric acid which is a mild acid capable of performing these functions without harsh acids, alkali or solvents often found in these types of products. Also designed for removing or neutralizing alkaline residues that remain on floors after chemical stripping. Effectively removes tannin stains from coffee, tea etc. on floors and carpeting. Extraction is recommended after cleaning carpet.

Benefits

- Citric acid based
- Alkaline residue neutralizer
- Concentrated
- Stain remover
- Mild acid based
- Mild detergent
- Non abrasive
- Non corrosive

Dilution Ratios

Extraction Rinse: Mix 1 oz per gallon/45ml per 3.8 litres of water.

Light Duty Cleaning: Mix 4 oz per gallon/120ml per 3.8 litres of water.

Medium Duty Cleaning: Mix 8 oz per gallon/240ml per 3.8 litres of water.

Heavy Duty Cleaning and Scouring: Mix 12 oz per gallon/360ml per 3.8 litres of water.

Directions for Use

Carpet & Fabric Spotter: Mix 15 oz per gallon/450ml per 3.8 litres of water. Apply to colorfast surface. Blot with clean white towel.

Extraction Rinse: Neutralizes and removes detergent residues that may cause resoiling.

Winter Rinse: Mix 1 oz per gallon/30ml per 3.8 litres of water to remove soils and films from winter conditions. Removes residues from rock salt and ice melters as well as ice, slush, and water film without affecting flooring or finishes.

Resilient Floors: Prior to floor refinishing, use Bufferall diluted at 1oz per gallon/30ml per 3.8 litres of water, to neutralize and remove residual alkalies that remain on floors after stripping.

Bathrooms: Removes mineral deposits, soap film and lime deposits from bathroom fixtures, water fountains, windows, mirrors, and stainless steel—safe on any washable surface.

Carpet: Removes tannin stains, such as coffee and tea, from colorfast carpet and fabrics, as well as removing “browning” caused by over-wetting or detergent residues. Test for colorfast properties prior to using. Always rinse with clear water.

Caution: Do not mix with chlorine containing products or bleach—releases chlorine gas. Mix only with water.

For a more detailed application and maintenance program please ask for our Step by Step Green Procedures Guide - Form 4105.

Properties	
Color	Clear Colorless
Fragrance	Odorless
Viscosity	Water, Thin
VOC's (% by weight) EPA Method 24	0%
pH	2
Readily Biodegradable	Yes
Phosphate Free	Yes

Available Packages	Package Code	
4x1 gallon case	# 12010427	
12x1 quart case	# 12010415
