

## Spill Buster Haz-Mat Premium Pads

### Part # SBHMP-70

Non-selective – will adsorb most acids, caustics, solvents and common fluids. Yellow, fine fibre, melt-blown polypropylene.

Treated with a wetting agent which enables the finished product to become non-selective. Ultrasonic weld offers superior strength.

- Adsorbs up to 10 times its weight
- Low linting
- High adsorption and retention capabilities
- Available in single & double weight fabric
