

RESTORATOR DUO – BATTERY OPERATED ODOUR CONTROL SYSTEM

The Restorator is a simple-to-use, portable battery or A/C powered system that quickly, safely and effectively neutralizes odour in areas up to 20,000 cubic feet. The Restorator uses Vaportek's patented essential oil membranes to release a non-toxic, odour-neutralizing dry vapour into the air. This pairing technology emits a penetrating vapour that **quickly controls and eliminates malodours from smoke, sewage, mould, blood and body fluids as well as other organic based odours.** Based on proven technology developed for use in medical facilities, the Restorator continues to perform in areas where client and staff safety are a primary concern. The Restorator is intended for applications where quick results are desired and power outlets are inaccessible. The Restorator should always be placed at the highest point in the treatment area to maximize the benefit. No ozone is produced and no evacuation or recovery period is necessary with Vaportek technology.

PRODUCT FEATURES

- Operates with either battery or A/C power
- 18+ hours battery life before charging is required.
- 3-6 hours for maximize recharge. DUO is operational during charging
- Treats area up to 20,000 cubic feet
- Use with Restorator cartridge, S.O.S for fire and smoke, 3X Industrial for all other applications
- Free Restorator with the purchase of 18 cartridges
- Use immediately to combat psychological odours and throughout the job to neutralize odours in building structure and contents
- Safe for staff and clients

PRODUCT SPECIFICATIONS

Product Code: Restorator DUO	90-5400
Extra Battery Pack	11-2148
Extra A/C Adaptor	11-2151
Electrical requirement	Battery or 110 Volt A/C adapter
Treatment area	20,000 cubic feet
Weight	1.0 kg (2.2 lbs)
Dimensions	Dimensions: 16x13x 30 cm (6.5"H x 5"W x 12"L)
Xactimate code	CLN DODRMEM
