

Safety Products for Hazardous Environments

### Model 1661

#### 65-Gallon Overpack with Screw Top Lid

Ideal for the storage, transportation, clean up and spill containment of larger containers (55 gallons or smaller). Constructed of 100% blow-molded high density polyethylene with UV inhibitors for superior strength and chemical resistance. These drums incinerate completely. Drums meet UN Rating **HM-181 1H2/X300/S**, performance requirements of **DOT 49 CFR 173.25**, and can be used with packing groups I, II, & III of hazardous materials.
