

Titan 4000 Hydroxyl Generator Part # Titan4000

REMOVE ODORS – KILL GERMS - CLEAN THE AIR

The Titan is a safer alternative to ozone when it comes to air purification and deodorization because you don't have to evacuate the treatment area to use it!

The Science of the Titan: This state-of-the-art system sends UV rays (365nm) (emitted from a TiO₂ photo-catalytic lamp) through an anatase-coated glass sleeve to trap huge amounts of titanium dioxide. Next, electron hole pairs form and react with water and oxygen, producing free electrons and hydroxyl radicals that, when dispersed by a fan, literally convert organic and inorganic gases and air pollutants into carbon dioxide and water.

PRODUCT SPECIFICATIONS

Voltage	110 V
Weight	38 lbs.
AMP	4 amps
CFM	5,000 CFM
Dimensions	16" X 26" X 12"
