

ZIPWALL®

DUST BARRIER SYSTEM

This product lets you professionally isolate your jobsite for dust control and prying eyes while complying with Flame Retardant regulations. They quickly and easily zip together to build a barrier up to 12' high and as wide as needed with zippered access built right in. They're easier to use, more economical, and greener than plastic sheeting.

These panels are Class A flame retardant in accordance with Chapter 8 of the International Building Code. Available in a Multi-Pack or as single panels. The 2.5' panel is ideal to use as doorway in the barrier. Flame-retardant panels are not washable. Poles not included.

Multi-Pack -- Flame Retardant contains three 5' panels, one 2.5' panel, and a ZipFast™ carry bag.

- Pays for itself in fewer than 7 uses
- Non Flame Retardant version has a 10-year limited warranty
- Easy to use – no measuring or cutting
- Airtight, tough nylon fabric panels --
- Tough and machine washable, with sewn-in heavy-duty zippers
- Provide privacy, hide messy areas
- For use with ZipWall® poles and accessories

ZipFast
