

- Botanical degreasing wipes
- All natural ingredients
- Food prep safe
- Fragrance free
- VOC free
- Gentle on hands

Benefect® Botanical Atomic Degreaser Wipes are a next generation botanical, high performance cleaner. Strong enough for the heaviest greasy soils but safe to use around children, pets, and the chemically-sensitive. Atomic uses optimized dynamic chemistry which features an extremely low DST (Dynamic Surface Tension). This delivers superior penetration of the soils, rapid wetting & dispersion of the particulates, without the need for heavy agitation. Traditional degreasers liquify the soils with solvents, making them hazardous to work with & difficult to rinse. Atomic Wipes' plant-based ingredients are gentle on hands and safely outperform synthetic solvent products.

Atomic Wipes are Ideal for heavy duty cleaning of surfaces & contents in fire & smoke damage restoration, trauma scenes, commercial kitchens, PPE, tools, automotive equipment, and other porous or non-porous surfaces that require cleaning with a commercial degreaser.

Atomic Wipes Are: Food prep safe, and biodegradable thanks to their extra strength wood pulp substrate.

Directions for Use:

General purpose cleaning such as light soot, greasy tools and organic matter: Wet the surface with the wipe & wipe clean.

Cleaning excess loose debris: Remove loose and excess debris then wet the surface with the wipe and wipe clean.

Baked or ground in debris: Pre-clean with Atomic Concentrate at proper dilution ratio by wetting the surface and allowing 2-5 minutes dwell time for best results. Once complete, use the Atomic wipe to wet the surface and wipe clean.

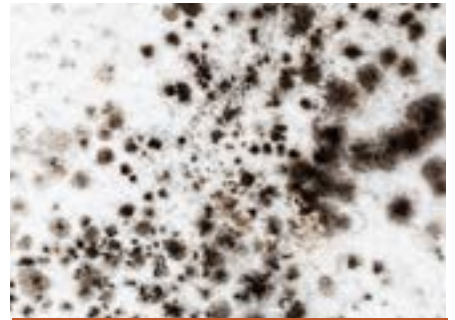

ATOMIC WIPE EFFECTIVELY AND SAFELY DEGREASE AND CLEAN A VARIETY OF SURFACES:

FIRE & SOOT

CRIME & TRAUMA

MOLD & MILDEW

COMMERCIAL KITCHENS

AUTOMOTIVE USE

TOOLS / PPE

EQUIPMENT

WATER DAMAGE

GRILLS / BAKED ON DEBRIS

Tough on grease...Gentle on you.

Atomic Wipes safely outperform synthetic solvent products and do not contribute to indoor air pollution. Atomic Wipes contain botanically sourced or sustainable ingredients & do NOT contain VOCs (Volatile Organic Compounds), solvents such as: butyls, ammonia, glycol ether nor any alkyl/nonyl phenol ethoxylates, dyes, fragrances, petrochemicals, phosphates, or other hazardous or unnecessary ingredients.

Product Format:

1 container / 170 wipes
6 / case

Properties:

pH: (100%) 10.9 - 11.0

Odor: Unscented

VOC: 0 g/L
